FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403 sets out the reimbursement guidelines for outpatient facility services provided in an acute care hospital.
3. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - W1 – Workers Compensation State Fee Schedule Adjustment
 - 18 – Duplicate claim/service

Issues

1. Did the respondent comply with Division guidelines when responding to MFDR request?
2. Did the requestor support the number of units billed?
3. Is the requestor entitled to reimbursement?

Findings

1. The Division placed a copy of the Medical Fee Dispute Resolution request in the insurance carrier's Austin representative box, which was acknowledged received on March 13, 2014. The insurance carrier did not submit a response for consideration in this review. Per the Division's former rule at 28 Texas Administrative Code §133.307(d)(1), effective May 25, 2008, 33 *Texas Register* 3954, "If the Division does not receive the response information within 14 calendar days of the dispute notification, then the Division may base its decision on the available information." Accordingly, this decision is based on the available information.
2. The carrier denied the disputed service as W1 – "Workers Compensation State Fee Schedule Adjustment." 28 Texas Labor Code §134.403(d) states in pertinent part, "For coding, billing, reporting, and reimbursement of health care covered in this section, Texas workers' compensation system participants shall apply Medicare payment policies in effect on the date a service is provided..." Review of the submitted medical bill finds the provider billed the disputed line item with 2 units and the "59" modifier. This modifier is defined as, "Modifier 59 is used to identify procedures/services, other than E/M services, that are not normally reported together, but are appropriate under the circumstances. Documentation must support a different session, different procedure or surgery, different site or organ system, separate incision/excision, separate lesion, or separate injury (or area of injury in extensive injuries) not ordinarily encountered or performed on the same day by the same individual." Review of the submitted medical record found no documentation to support separate and distinct therapeutic injections were performed on this day for this patient.
3. Review of submitted claim and documentation finds no support of two separate and distinct units of service. No additional reimbursement can be recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
